300 Pasteur Dr., M350, Stanford, California 94305-5120

Stanford's Bioscience PhD programs. An underlying theme in our Department is that genetics is not merely a set of tools but a coherent and fruitful way of thinking about biology and medicine. To this end, we emphasize a spectrum of approaches based on molecules, organisms, populations, and genomes. We provide training through laboratory rotations, dissertation research, seminar series, didactic and interactive coursework, and an annual three-day retreat of nearly 200 students, faculty, postdoctoral fellows, and research staff. The mission of the Department includes education and teaching as well as research; graduates from our program pursue careers in many different venues including research in academic or industrial settings, health care, health policy, and education. We are especially committed to increasing diversity within the program, and to the training of individuals from traditionally underrepresented minority groups to apply.
